LETTER TO SHAREHOLDERS

For the fiscal year ended September 30, 2018, Causeway International Value Fund's (the "Fund's") Institutional Class returned 0.33% and Investor Class returned 0.22% compared to the MSCI EAFE Index (Gross) ("EAFE Index") return of 3.25%. Since the Fund's inception on October 26, 2001, its average annual total returns are 7.52% for the Institutional Class and 7.27% for the Investor Class compared to the EAFE Index's average annual total return of 6.55%. At fiscal year-end, the Fund had net assets of \$8.48 billion.

Performance Review

Developed equity markets rose during the fiscal year following signs of continuing global growth, albeit less synchronized than in calendar 2017, as the US outpaced other developed markets, responding to the continuation of low interest rates and fiscal stimulus. The IHS US Manufacturing Purchasing Managers' Index ("PMI") reflected a strong improvement in US manufacturing operating conditions towards the end of the fiscal year, despite a sharp increase in input prices, mainly attributed to tariff increases implemented by the Trump administration. The US has remained resilient in the face of further tariff increases thus far; however, there are signs that the trade conflict has begun to weigh on economies and markets outside of the US. For example, the Eurozone PMI September reading indicated a continuing slowdown in growth (though still above trend), linked to a weakening trade cycle. Trade war fears and uncertainty regarding the Italian budget increased risk aversion among consumers and contributed to low levels of business and consumer optimism. Although domestic consumption has held up thus far due to falling unemployment, weaker exports combined with higher oil prices could stall the growth expansion in the Eurozone. The best performing markets in our investable universe included Israel, Norway, Finland, Japan, and Singapore. The biggest laggards included Belgium, Spain, Italy, Ireland, and Germany. The best performing sectors in the EAFE Index were energy, health care, and information technology, while financials, telecommunication services, and utilities were the worst performing sectors.

For the fiscal year, Fund holdings in the food beverage & tobacco, software & services, consumer durables & apparel, insurance, and utilities industry groups detracted the most from the Fund's performance relative to the performance of EAFE Index. Holdings in the automobiles & components, telecommunication services, transportation, and materials industry groups, as well as an overweight position in the energy industry group, offset some of the underperformance. The biggest detractor from absolute return was British American Tobacco Plc (United Kingdom). Other notable detractors included banking & financial services company, UniCredit S.p.A. (Italy), baked goods food producer, Aryzta AG (Switzerland), Takeda Pharmaceutical Co., Ltd. (Japan), and diversified chemicals manufacturer, BASF SE (Germany). The largest contributor to absolute return was crude oil & natural gas company, BP Plc (United Kingdom). Additional top contributors included automobile manufacturer, Volkswagen AG (Germany), energy supermajor, Royal Dutch Shell Plc (United Kingdom), rail operator, Canadian Pacific Railway (Canada), and pharmaceutical company, AstraZeneca Plc (United Kingdom).

Significant Portfolio Changes

Our disciplined purchase and sale process led the portfolio management team to reduce exposure to several holdings that approached fair value in our view. The largest sales during the fiscal year included energy management solutions

company, Schneider Electric SE (France), oil & gas exploration company, CNOOC Ltd. (Hong Kong), construction & mining equipment manufacturer, Komatsu Ltd. (Japan), electrical & electronic equipment manufacturer, Hitachi Ltd. (Japan), and financial services company, Zurich Financial Services (Switzerland). Significant purchases included two new additions to the Fund: jet engine manufacturer, Rolls-Royce Holdings Plc (United Kingdom) and property & casualty insurer, Sompo Holdings, Inc. (Japan), along with increased weights to industrial gas company, Linde AG (Germany), Takeda Pharmaceutical Co., Ltd. (Japan), and life insurer, Prudential Plc (United Kingdom).

Fund exposures to currencies, industries, and countries are a by-product of our bottom-up stock selection process. The Fund's weights relative to the EAFE Index in the banks, materials, and insurance industry groups increased the most compared with the beginning of the fiscal year, while relative weights in the energy, capital goods, and technology hardware & equipment industry groups were the greatest decreases. From a regional perspective, the most notable weight changes relative to the EAFE Index included increased exposure to Germany and the United Kingdom. The most significantly reduced relative country weights included France and Japan. At the end of the fiscal year, the Fund's three largest industry group exposures from an absolute perspective were to the banks, pharmaceuticals & biotechnology, and materials industry groups.

Investment Outlook

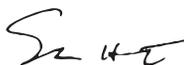

The shift to tighter monetary policy in the US and less accommodative policies in other regions is taking dollar liquidity from emerging markets and, we believe, raising the discount rate for investments globally. Value and cyclicity risk factors have been among the worst performers over the calendar year-to-date period, yet both performed well relative to other risk factors in the month of September. As central banks gradually reduce liquidity in the market, we have continued to emphasize companies with financial strength and abundant free cash flow generation. We believe these companies can reward investors in the present through dividends and share repurchases — rather than in the distant future — and should behave as low duration equities in the face of rising interest rates. Aside from the gradual reduction in liquidity across developed markets in this later stage of the business cycle, concerns of a global trade war have also increased uncertainty for equity markets. In such an environment, we believe companies engaged in operational restructuring are all the more important. We believe that valuations are too low for these stocks, and management teams are working diligently to revitalize earnings growth and boost share prices. Examples of ongoing operational restructuring progress made over the past two years include a global automotive giant (which doubled operational profit margins) and an Italian financial services company (which has doubled capital ratios and dramatically reduced bad debts). While shareholders remain patient for the fruits of “self-help” to accrue to these portfolio companies, we believe that their robust cash flow generation should promote generous dividend payouts and share repurchases. This return of capital to shareholders is the “bird in the hand” in investment performance, and may become all the more important in the quarters and years ahead.

We thank you for your continued confidence in Causeway International Value Fund.

Investing involves risk including loss of principal. In addition to the normal risks associated with investing, international investments may involve risk of capital loss from unfavorable fluctuation in currency values, from differences in generally accepted accounting principles or from economic or political instability in other nations. Emerging markets involve heightened risks related to the same factors as well as increased volatility and lower trading volume. Diversification does not prevent all investment losses.

A company may reduce or eliminate its dividend, causing losses to the fund.

Comparison of Change in the Value of a \$10,000 Investment in Causeway International Value Fund, Investor Class shares versus the MSCI EAFE Index (Gross) as of September 30, 2018

The performance in the above graph does not reflect the deduction of taxes the shareholder will pay on Fund distributions or the redemptions of Fund shares.

* Inception is October 26, 2001.

The performance data represents past performance and is not an indication of future results. Investment return and the principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth less than their original cost and current performance may be higher or lower than the performance quoted. For performance data current to the most recent month end, please call 1-866-947-7000 or visit www.causewayfunds.com. Investment performance reflects contractual fee waivers during certain periods. In the absence of such fee waivers, total return would have been reduced. Total returns assume reinvestment of dividends and capital gains distributions at net asset value when paid. Investor Class shares pay a shareholder service fee of up to 0.25% per annum of average daily net assets. Institutional Class shares pay no shareholder service fee. Pursuant to the current July 24, 2018 prospectus, the Fund's expense ratios were 0.89% and 1.14% for the Institutional Class and Investor Class, respectively. The Fund imposes a 2% redemption fee on the value of shares redeemed less than 60 days after purchase. If your account incurred a redemption fee, your performance will be lower than the performance shown here. For more information, please see the prospectus.

The MSCI EAFE Index (Gross) is a free float-adjusted market capitalization weighted index, designed to measure developed market equity performance excluding the U.S. and Canada, consisting of 21 stock markets in Europe, Australasia and the Far East. The Index is gross of withholding taxes and assumes reinvestment of dividends and capital gains. The Index does not reflect the payment of transaction costs, fees and expenses associated with an investment in the Fund. It is not possible to invest directly in an index. There are special risks in foreign investing (please see Note 5 in the Notes to Financial Statements).

MSCI has not approved, reviewed or produced this report, makes no express or implied warranties or representations, and is not liable whatsoever for any data in this report. You may not redistribute the MSCI data or use it as a basis for other indices or investment products.

† Per share amounts calculated using average shares method.

- (1) Amount represents less than \$0.01 per share (See Note 2 in the Notes to Financial Statements).
- (2) The amount shown for the year ended September 30, 2016, for a share outstanding throughout the period does not accord with the aggregate net gains on investments for that period because of the sales and repurchase of Fund shares in relation to the fluctuating market value of the investments of the Fund.
- (3) The expense ratio includes a one-time adjustment as a result of a management change in accrual estimate relating to shareholder service fees. Had this adjustment been excluded, the ratios would have been 1.13% and 1.87%, respectively.

Amounts designated as “—” are \$0 or round to \$0.

The accompanying notes are an integral part of the financial statements.

Net Asset Value, End of Year (\$)	Total Return (%)	Net Assets, End of Year (\$000)	Ratio of Expenses to Average Net Assets (%)	Ratio of Net Investment Income to Average Net Assets (%)	Portfolio Turnover Rate (%)

NOTES TO FINANCIAL STATEMENTS

I. Organization

Causeway International Value Fund (the “Fund”) is a series of Causeway Capital Management Trust (the “Trust”). The Trust is an open-end management investment company registered under the Investment Company Act of 1940, as amended (the “1940 Act”) and is a Delaware statutory trust that was established on August 10, 2001. The Fund began operations on October 26, 2001. The Fund is authorized to offer two classes of shares, the Institutional Class and the Investor Class. The Declaration of Trust authorizes the issuance of an unlimited number of shares of beneficial interest of the Fund. The Fund is diversified. The Fund’s prospectus provides a description of the Fund’s investment objectives, policies and strategies. The Trust has five additional series, the financial statements of which are presented separately.

2. Significant Accounting Policies

The following is a summary of the significant accounting policies consistently followed by the Fund.

Use of Estimates in the Preparation of Financial Statements – The Fund is an investment company that applies the accounting and reporting guidance issued in Topic 946 by the U.S. Financial Accounting Standards Board. The Fund’s financial statements have been prepared to comply with U.S. generally accepted accounting principles (“U.S. GAAP”). The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amount of net assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

Security Valuation – Except as described below, securities listed on a securities exchange (except the NASDAQ Stock Market (“NASDAQ”)) or Over-the-Counter (“OTC”) for which market quotations are available are valued at the last reported sale price as of the close of trading on each business day, or, if there is no such reported sale, at the last reported bid price for long positions. For securities traded on NASDAQ, the NASDAQ Official Closing Price is used. Securities listed on multiple exchanges or OTC markets are valued on the exchange or OTC market considered by the Fund to be the primary market. The prices for foreign securities are reported in local currency and converted to U.S. dollars using currency exchange rates. Prices for most securities held in the Fund are provided daily by recognized independent pricing agents. If a security price cannot be obtained from an independent pricing agent, the Fund seeks to obtain a bid price from at least one independent broker. Investments in money market funds are valued daily at the net asset value per share.

Securities for which market prices are not “readily available” are valued in accordance with fair value pricing procedures approved by the Fund’s Board of Trustees (the “Board”). The Fund’s fair value pricing procedures are implemented through a Fair Value Committee (the “Committee”) designated by the Board. Some of the more common reasons that may necessitate that a security be valued using fair value pricing procedures include: the security’s trading has been halted or suspended; the security has been delisted from a national exchange; the security’s primary trading market is temporarily closed at a time when under normal conditions it would be open; or the security’s primary pricing source is not able or willing to provide a price. When the Committee values a security in accordance with the fair value pricing procedures, the Committee will determine the value after taking into consideration relevant information reasonably available to the Committee.

NOTES TO FINANCIAL STATEMENTS

(continued)

The Fund uses a third party vendor to fair value certain non-U.S. securities if there is a movement in the U.S. market or a designated exchange-traded fund that trades in the U.S. that exceeds thresholds established by the Committee. The vendor provides fair values for foreign securities based on factors and methodologies involving, generally, tracking valuation correlations between the U.S. market and each non-U.S. security and such fair values are applied by the administrator if a pre-determined confidence level is reached for the security.

In accordance with the authoritative guidance on fair value measurements and disclosure under U.S. GAAP, the Fund discloses fair value of its investments in a hierarchy that prioritizes the inputs to valuation techniques used to measure the fair value. The objective of a fair value measurement is to determine the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). Accordingly, the fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The guidance establishes three levels of fair value hierarchy as follows:

- Level 1 — Unadjusted quoted prices in active markets for identical, unrestricted assets or liabilities that the Fund has the ability to access at the measurement date;
- Level 2 — Quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets which are not active, or prices based on inputs that are observable (either directly or indirectly); and
- Level 3 — Prices, inputs or exotic modeling techniques which are both significant to the fair value

measurement and unobservable (supported by little or no market activity).

Investments are classified within the level of the lowest significant input considered in determining fair value. Investments classified within Level 3 which fair value measurement considers several inputs may include Level 1 or Level 2 inputs as components of the overall fair value measurement.

Changes in valuation techniques may result in transfers in or out of an investment's assigned level within the hierarchy during the reporting period. Changes in the classification between Levels 1 and 2 occur primarily when foreign equity securities are fair valued by the Fund's third party vendor using other observable market-based inputs in place of closing exchange prices due to events occurring after foreign market closures.

For the fiscal year ended September 30, 2018, there were no changes to the Fund's fair value methodologies.

Federal Income Taxes – The Fund intends to continue to qualify as a regulated investment company under Subchapter M of the Internal Revenue Code and to distribute substantially all of its taxable income. Accordingly, no provision for Federal income taxes has been made in the financial statements.

The Fund evaluates tax positions taken or expected to be taken in the course of preparing the Fund's tax returns to determine whether it is "more-likely-than not" (i.e., greater than 50-percent) that each tax position will be sustained upon examination by a taxing authority based on the technical merits of the position. Tax positions not deemed to meet the "more-likely-than" threshold are recorded as tax benefits or expenses in the current year. The Fund did not record any tax provision in the current period. However, management's conclusions

NOTES TO FINANCIAL STATEMENTS

(continued)

regarding tax positions taken may be subject to review and adjustment at a later date based on factors including, but not limited to, examination by tax authorities (during the last 3 tax years, as applicable), and on-going analysis of and changes to tax laws, regulations and interpretations thereof.

As of and during the fiscal year ended September 30, 2018, the Fund did not have a liability for any unrecognized tax benefits. The Fund recognizes interest and penalties, if any, related to unrecognized tax benefits as income tax expense in the Statement of Operations. During the fiscal year, the Fund did not incur any significant interest or penalties.

Security Transactions and Related Income – Security transactions are accounted for on the date the security is purchased or sold (trade date). Dividend income is recognized on the ex-dividend date, and interest income is recognized using the accrual basis of accounting. Costs used in determining realized gains and losses on the sales of investment securities are those of the specific securities sold.

Foreign Currency Translation – The books and records of the Fund are maintained in U.S. dollars on the following basis:

- (1) the market value or fair value of investment securities, assets and liabilities is converted at the current rate of exchange; and
- (2) purchases and sales of investment securities, income and expenses are converted at the relevant rates of exchange prevailing on the respective dates of such transactions.

The Fund does not isolate that portion of gains and losses on investments in equity securities that is due to changes in the foreign exchange rates from that which is due to changes in market prices of equity securities.

Foreign Currency Exchange Contracts – When the Fund purchases or sells foreign securities, it enters into corresponding foreign currency exchange contracts to settle the securities transactions. Losses from these foreign exchange transactions may arise from changes in the value of the foreign currency between trade date and settlement date or if the counterparties do not perform under the contract's terms.

Expense/Classes – Expenses that are directly related to one Fund of the Trust are charged directly to that Fund. Other operating expenses of the Trust are prorated to the Fund and the other series of the Trust on the basis of relative daily net assets. Class specific expenses are borne by that class of shares. Income, realized and unrealized gains (losses) and non-class specific expenses are allocated to the respective classes on the basis of relative daily net assets.

Dividends and Distributions – Dividends from net investment income, if any, are declared and paid on an annual basis. Any net realized capital gains on sales of securities are distributed to shareholders at least annually.

Redemption Fee – The Fund imposes a redemption fee of 2% on the value of shares redeemed less than 60 days after purchase. The redemption fee also applies to exchanges from the Fund. The redemption fee is paid to the Fund. The redemption fee does not apply to shares purchased through reinvested distributions or shares redeemed through designated systematic withdrawal plans. The redemption fee does not normally apply to accounts designated as omnibus accounts with the transfer agent. These are arrangements through financial intermediaries where the purchase and sale orders of a number of persons are aggregated before being communicated to the Fund. However, the Fund may seek agreements with these intermediaries to impose the Fund's redemption fee or a different redemption fee

NOTES TO FINANCIAL STATEMENTS

(continued)

on their customers if feasible, or to impose other appropriate restrictions on excessive short-term trading. The officers of the Fund may waive the redemption fee for shareholders in asset allocation and similar investment programs believed not to be engaged in short-term market timing, including for holders of shares purchased by Causeway Capital Management LLC (the “Adviser”) for its clients to rebalance their portfolios. For the fiscal year ended September 30, 2018, the Institutional Class and Investor Class retained \$133,594 and \$21,607 in redemption fees, respectively.

Other – Brokerage commission recapture payments are credited to realized capital gains and are included in net realized gains from security transactions on the Statement of Operations. For the fiscal year ended September 30, 2018, the Fund received commission recapture payments of \$124,526.

3. Investment Advisory, Administration, Shareholder Service and Distribution Agreements

The Trust, on behalf of the Fund, has entered into an Investment Advisory Agreement (the “Advisory Agreement”) with the Adviser. Under the Advisory Agreement, the Adviser is entitled to a monthly fee equal to an annual rate of 0.80% of the Fund’s average daily net assets. The Adviser has contractually agreed through September 30, 2019 to waive its fee and, to the extent necessary, reimburse the Fund to keep total annual fund operating expenses (excluding brokerage fees and commissions, interest, taxes, shareholder service fees, fees and expenses of other funds in which the Fund invests, and extraordinary expenses) from exceeding 1.05% of Institutional Class and Investor Class average daily net assets. No waivers or reimbursements were required for the fiscal year ended September 30, 2018.

The Trust and SEI Investments Global Funds Services (the “Administrator”) have entered into an Administration

Agreement. Under the terms of the Administration Agreement, the Administrator is entitled to an annual fee which is calculated daily and paid monthly based on the aggregate average daily net assets of the Trust subject to a minimum annual fee.

The Trust has adopted a Shareholder Service Plan and Agreement for Investor Class shares that allows the Trust to pay broker-dealers and other financial intermediaries a fee of up to 0.25% per annum of average daily net assets for services provided to Investor Class shareholders. For the fiscal year ended September 30, 2018, the Investor Class paid 0.10% of average daily net assets under this plan. This amount was reduced by a one-time adjustment as a result of a management change in accrual estimate. Excluding the adjustment, the Investor Class would have paid, (0.00)%.

The Trust and SEI Investments Distribution Co. (the “Distributor”) have entered into a Distribution Agreement. The Distributor receives no fees from the Fund for its distribution services under this agreement.

The officers of the Trust are also officers or employees of the Administrator or Adviser. They receive no fees for serving as officers of the Trust.

As of September 30, 2018, approximately \$4.698 million of the Fund’s shares were held by investors affiliated with the Adviser.

4. Investment Transactions

The cost of security purchases and the proceeds from the sale of securities, other than short-term investments, during the fiscal year ended September 30, 2018, for the Fund were as follows (000):

Purchases	Sales
\$2,769,978	\$2,461,087

NOTES TO FINANCIAL STATEMENTS

(continued)

5. Risks of Foreign Investing

Because the Fund invests most of its assets in foreign securities, the Fund is subject to additional risks. For example, the value of the Fund's securities may be affected by social, political and economic developments and U.S. and foreign laws relating to foreign investments. Further, because the Fund invests in securities denominated in foreign currencies, the Fund's securities may go down in value depending on foreign exchange rates. Other risks include trading, settlement, custodial, and other operational risks; withholding or other taxes; and the less stringent investor protection and disclosure standards of some foreign markets. All of these factors can make foreign securities less liquid, more volatile and harder to value than U.S. securities. These risks are higher for emerging markets investments.

6. Federal Tax Information

The Fund is classified as a separate taxable entity for Federal income tax purposes. The Fund intends to continue to qualify as a separate "regulated investment company" under Subchapter M of the Internal Revenue Code and make the requisite distributions to shareholders that will be sufficient to relieve it from Federal income tax and Federal excise tax. Therefore, no Federal tax provision is required. To the extent that dividends from net investment income and distributions from net realized capital gains exceed amounts reported in the financial statements, such amounts are reported separately.

The Fund may be subject to taxes imposed by countries in which it invests in issuers existing or operating in such countries. Such taxes are generally based on income earned. The Fund accrues such taxes when the related income is earned. Dividend and interest income is recorded net of non-U.S. taxes paid.

The amounts of distributions from net investment income and net realized capital gains are determined in

accordance with Federal income tax regulations, which may differ from those amounts determined under U.S. GAAP. These book/tax differences are either temporary or permanent in nature. The character of distributions made during the year from net investment income or net realized gains, and the timing of distributions made during the year may differ from those during the year that the income or realized gains (losses) were recorded by the Fund. To the extent these differences are permanent, adjustments are made to the appropriate equity accounts in the period that the differences arise.

Accordingly, the following permanent differences, which are primarily due to realized gains on foreign currency transactions and investments in REITs, were reclassified to/(from) the following accounts as of September 30, 2018 (000):

Paid-in Capital	Undistributed Net Investment Income	Accumulated Net Realized Gain
<u>\$(36,355)</u>	<u>\$2,028</u>	<u>\$34,327</u>

The reclassifications had no impact on net assets or net asset value per share.

The tax character of dividends and distributions declared during the fiscal years ended September 30, 2018 and September 30, 2017 were as follows (000):

	Ordinary Income	Total
<u>2018</u>	<u>\$154,642</u>	<u>\$154,642</u>
<u>2017</u>	<u>115,878</u>	<u>115,878</u>

As of September 30, 2018, the components of distributable earnings on a tax basis were as follows (000):

Undistributed Ordinary Income	\$169,766
Unrealized Appreciation	251,959
Other Temporary Differences	<u>9</u>
Total Distributable Earnings	<u>\$421,734</u>

NOTES TO FINANCIAL STATEMENTS

(continued)

For Federal income tax purposes, capital losses incurred in taxable years beginning before December 22, 2010 may be carried forward for a maximum period of eight years and applied against future net realized gains. The following summarizes the pre-enactment capital loss carryforwards as of September 30, 2018 (000):

Expiring in Fiscal Year	Amount
2018	<u>\$36,355</u>
Total pre-enactment capital loss carryforwards	<u>\$36,355</u>

Under the Regulated Investment Company Modernization Act of 2010, the Fund is permitted to carry forward capital losses incurred in taxable years beginning after December 22, 2010 for an unlimited period. However, any losses incurred during those future taxable years are required to be used prior to the losses incurred in pre-enactment taxable years. As a result of this ordering rule, pre-enactment capital loss carryforwards may be more likely to expire unused. Additionally,

post-enactment capital losses that are carried forward will retain their character as either short-term or long-term capital losses rather than being considered all short-term as under previous law. Losses carried forward are as follows (000):

Short-Term post-enactment Loss	Long-Term post-enactment Loss	Total*
\$36,355	\$—	\$36,355

* This table should be used in conjunction with the pre-enactment capital loss carryforwards table.

At September 30, 2018, the total cost of investments for Federal income tax purposes and the aggregate gross unrealized appreciation and depreciation on investments for the Fund were as follows (000):

Federal Tax Cost	Appreciated Securities	Depreciated Securities	Net Unrealized Appreciation
\$8,164,473	\$789,562	\$(537,610)	\$251,952

7. Capital Shares Issued and Redeemed (000)

	Fiscal Year Ended September 30, 2018		Fiscal Year Ended September 30, 2017	
	Shares	Value	Shares	Value
Institutional Class				
Shares Sold	126,789	\$ 2,139,762	140,914	\$ 2,148,094
Shares Issued in Reinvestment of Dividends and Distributions	7,467	128,098	6,847	94,769
Shares Redeemed	<u>(108,289)</u>	<u>(1,822,273)</u>	<u>(99,403)</u>	<u>(1,469,921)</u>
Increase in Shares Outstanding				
Derived from Institutional Class Transactions	<u>25,967</u>	<u>445,587</u>	<u>48,358</u>	<u>772,942</u>
Investor Class

Shares Issued in Reinvestment of Dividends and Distributions	742	12,644	777	10,681
Shares Redeemed	<u>(16,479)</u>	<u>(278,683)</u>	<u>(12,698)</u>	<u>(184,364)</u>
Decrease in Shares Outstanding				
Derived from Investor Class Transactions	<u>(5,741)</u>	<u>(100,311)</u>	<u>(3,349)</u>	<u>(49,294)</u>
Net Increase in Shares Outstanding from Capital Share Transactions	<u>20,226</u>	<u>\$ 345,276</u>	<u>45,009</u>	<u>\$ 723,648</u>

NOTES TO FINANCIAL STATEMENTS

(concluded)

8. Significant Shareholder Concentration

As of September 30, 2018, two of the Fund's shareholders of record owned 52% of Institutional Class shares. The Fund may be adversely affected when a shareholder purchases or redeems large amounts of shares, which may impact the Fund in the same manner as a high volume of redemption requests. Such large shareholders may include, but are not limited to, other funds, institutional investors, and asset allocators who make investment decisions on behalf of underlying clients. Significant shareholder purchases and redemptions may adversely impact the Fund's portfolio management and may cause the Fund to make investment decisions at inopportune times or prices or miss attractive investment opportunities. Such transactions may also increase the Fund's transaction costs, accelerate the realization of taxable income if sales of securities result in gains, or otherwise cause the Fund to perform differently than intended.

9. Indemnifications

Under the Trust's organizational documents, each Trustee, officer, employee or other agent of the Trust is indemnified against certain liabilities that may arise out of the performance of his or her duties to the Fund. Additionally, in the normal course of business, the Fund

enters into contracts, including the Fund's servicing agreements, that contain a variety of indemnification clauses. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. The risk of material loss as a result of such indemnification claims is considered remote.

10. New Accounting Pronouncements

In August 2018, the FASB issued Accounting Standards Update 2018-13, Fair Value Measurement (Topic 820). The new guidance includes additions and modifications to disclosures requirements for fair value measurements. For public entities, the amendments are effective for financial statements issued for fiscal years beginning after December 15, 2019, and interim periods within those fiscal years. At this time, management is currently evaluating the impact of this new guidance on the financial statements and disclosures.

11. Subsequent Events

The Fund has evaluated the need for disclosures and/or adjustments resulting from subsequent events through the date the financial statements were available to be issued. Based on this evaluation, no adjustments were required to the financial statements.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Trustees of Causeway Capital Management Trust and Shareholders of the Causeway International Value Fund

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities, including the schedule of investments, of Causeway International Value Fund (one of the funds constituting Causeway Capital Management Trust, referred to hereafter as the “Fund”) as of September 30, 2018, the related statement of operations for the year ended September 30, 2018, the statement of changes in net assets for each of the two years in the period ended September 30, 2018, including the related notes, and the financial highlights for each of the five years in the period ended September 30, 2018 (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund as of September 30, 2018, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period ended September 30, 2018 and the financial highlights for each of the five years in the period ended September 30, 2018 in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Fund’s management. Our responsibility is to express an opinion on the Fund’s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits of these financial statements in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. Our procedures included confirmation of securities owned as of September 30, 2018 by correspondence with the custodian, transfer agent and brokers; when replies were not received from brokers, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinion.

PricewaterhouseCoopers LLP
Los Angeles, California
November 27, 2018

We have served as the auditor of one or more investment companies in Causeway Capital Management investment company group since 2001.

NOTICE TO SHAREHOLDERS (Unaudited)

The information set forth below is for the Fund's fiscal year as required by federal laws. Shareholders, however, must report distributions on a calendar year basis for income tax purposes, which may include distributions for portions of two fiscal years of the Fund. Accordingly, the information needed by shareholders for income tax purposes will be sent to them in early 2019. Please consult your tax adviser for proper treatment of this information.

For the fiscal year ended September 30, 2018, the Fund is designating the following items with regard to distributions paid during the year:

(A)	(B)	(C)	(D)	(E)
<u>Long Term Capital Gains Distributions (Tax Basis)</u>	<u>Ordinary Income Distributions (Tax Basis)</u>	<u>Tax Exempt Distributions (Tax Basis)</u>	<u>Total Distributions (Tax Basis)</u>	<u>Dividends⁽¹⁾ for Corporate Dividends Received Deduction (Tax Basis)</u>
0.00%	100.00%	0.00%	100.00%	(19.22)%
(F)	(G)	(H)		
<u>Qualified Dividend Income</u>	<u>Interest Related Dividends</u>	<u>Qualified Short-Term Capital Gain Dividends</u>		
100.00%	0.01%	0.00%		

Foreign taxes accrued during the fiscal year ended September 30, 2018, amounted to \$20,837,329 and are expected to be passed through to shareholders as foreign tax credits on Form 1099 – Dividend for the year ending December 31, 2018. In addition, for the fiscal year ended September 30, 2018, gross income derived from sources within foreign countries amounted to \$282,112,470 for the Fund.

⁽¹⁾ Qualified Dividends represent dividends which qualify for the corporate dividends received deduction.

Items (A), (B), (C) and (D) are based on a percentage of the Fund's total distribution including pass-through as foreign tax credit.

Item (E) is based on a percentage of ordinary income distributions of the Fund.

Item (F) represents the amount of "Qualified Dividend Income" as defined in the Jobs and Growth Tax Relief Reconciliation Act of 2003 and is reflected as a percentage of "Ordinary Income Distributions." It is the Fund's intention to designate the maximum amount permitted by the law up to 100%.

Item (G) is the amount of "Interest Related Dividends" as created by the American Jobs Creation Act of 2004 and is reflected as a percentage of net investment income distributions that is exempt from U.S. withholding tax when paid to foreign investors.

Item (H) is the amount of "Qualified Short-Term Capital Gain Dividends" as created by the American Jobs Creation Act of 2004 and is reflected as a percentage of short-term capital gain distributions that is exempt from U.S. withholding tax when paid to foreign investors.

TRUSTEES AND OFFICERS INFORMATION (Unaudited)

Information pertaining to the Trustees and Officers of the Trust is set forth below. Trustees who are not deemed to be “interested persons” of the Trust as defined in the 1940 Act are referred to as “Independent Trustees.” The Trust’s Statement of Additional Information (“SAI”) includes additional information about the Trustees and Officers. The SAI may be obtained without charge by calling 1-866-947-7000.

¹ Each Trustee may be contacted by writing to the Trustee c/o Causeway Capital Management Trust, One Freedom Valley Drive, Oaks, PA 19456.

² Each Trustee holds office during the lifetime of the Trust or until his or her sooner resignation, retirement, removal, death or incapacity in accordance with the Trust's Declaration of Trust. The president, treasurer, secretary and other officers each holds office at the pleasure of the Board of Trustees or until he or she sooner resigns in accordance with the Trust's Bylaws.

³ The "Trust Complex" consists of all registered investment companies for which Causeway Capital Management LLC serves as investment adviser. As of September 30, 2018, the Trust Complex consisted of one investment company with six portfolios — International Value Fund, Emerging Markets Fund, Global Value Fund, International Opportunities Fund, Global Absolute Return Fund, and International Small Cap Fund — and one investment company with two portfolios — International Value NextShares and Global Value NextShares.

⁴ Directorships of companies required to report to the Securities and Exchange Commission under the Securities Exchange Act of 1934 (i.e., "public companies") or other investment companies registered under the 1940 Act.

⁵ These officers of the Trust also serve as officers of one or more mutual funds for which SEI Investments Company or an affiliate acts as investment manager, administrator or distributor.

DISCLOSURE OF FUND EXPENSES (Unaudited)

As a shareholder of the Fund, you incur two types of costs: (1) transaction costs, including redemption fees, and (2) ongoing costs, including management fees, shareholder service fees, and other Fund expenses. It is important for you to understand the impact of these costs on your investment returns.

Ongoing operating expenses are deducted from a mutual fund's gross income and directly reduce its final investment return. These expenses are expressed as a percentage of a mutual fund's average net assets; this percentage is known as a mutual fund's expense ratio.

The following examples use the expense ratio and are intended to help you understand the ongoing costs (in dollars) of investing in the Fund and to compare these costs with those of other mutual funds. The examples are based on an investment of \$1,000 made at the beginning of the period shown and held for the entire period (April 1, 2018 to September 30, 2018).

The table on the next page illustrates the Fund's costs in two ways:

Actual Fund Return. This section helps you to estimate the actual expenses after fee waivers that the Fund incurred over the period. The "Expenses Paid During Period" column shows the actual dollar expense cost incurred by a \$1,000 investment in the Fund, and the "Ending Account Value" number is derived from deducting that expense cost from the Fund's gross investment return.

You can use this information, together with the actual amount you invested in the Fund, to estimate the expenses you paid over that period. Simply divide your actual account value by \$1,000 to arrive at a ratio (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply that ratio by the number shown under "Expenses Paid During Period."

Hypothetical 5% Return. This section helps you compare the Fund's costs with those of other mutual funds. It assumes that the Fund had an annual 5% return before expenses during the year, but that the expense ratio (Column 3) for the period is unchanged. This example is useful in making comparisons because the Securities and Exchange Commission requires all mutual funds to make this 5% calculation. You can assess the Fund's comparative cost by comparing the hypothetical result for the Fund in the "Expenses Paid During Period" column with those that appear in the same charts in the shareholder reports for other mutual funds.

NOTE: Because the return is set at 5% for comparison purposes — NOT the Fund's actual return — the account values shown may not apply to your specific investment.

DISCLOSURE OF FUND EXPENSES (Unaudited)

(concluded)

	Beginning Account Value 4/01/18	Ending Account Value 9/30/18	Annualized Expense Ratios	Expenses Paid During Period*
<i>Causeway International Value Fund</i>				
Actual Portfolio Return				
Institutional Class	\$1,000.00	\$ 992.20	0.88%	\$4.39
Hypothetical 5% Return				
Institutional Class	\$1,000.00	\$1,020.66	0.88%	\$4.46
Actual Portfolio Return				
Investor Class	\$1,000.00	\$ 990.90	1.13%	\$5.64
Hypothetical 5% Return				
Investor Class	\$1,000.00	\$1,019.40	1.13%	\$5.72

* Expenses are equal to the Fund's annualized expense ratio multiplied by the average account value over the period, multiplied by 183/365 (to reflect the one-half year period).

STATEMENT REGARDING BASIS FOR RENEWAL OF INVESTMENT ADVISORY AGREEMENT (Unaudited)

At a meeting on August 6, 2018, the Trustees considered and approved the renewal of the investment advisory agreement (the “Advisory Agreement”) between Causeway Capital Management Trust (the “Trust”) and Causeway Capital Management LLC (the “Adviser”) with respect to Causeway International Value Fund (the “Fund”) for a twelve-month period beginning September 20, 2018. Section 15(c) of the Investment Company Act of 1940, as amended (the “1940 Act”) requires the Board of Trustees (the “Board”) of the Trust annually to approve continuance of the Advisory Agreement. Continuance of the Advisory Agreement must be approved by a majority of the Trustees and a majority of the independent Trustees (i.e., Trustees who are not “interested persons” of the Trust as defined in the 1940 Act). The Board was comprised of four independent Trustees when the continuation of the Advisory Agreement was considered.

Information Received. At each regular quarterly meeting, the Board reviews a wide variety of materials relating to the nature, extent and quality of the Adviser’s services, including information concerning the Fund’s performance. In addition, at a special meeting on June 21, 2018, the Trustees received and reviewed extensive quantitative and qualitative materials prepared by the Adviser relating to the Advisory Agreement in response to information requested on the independent Trustees’ behalf by their independent legal counsel. At the June special meeting, the Trustees also received and reviewed a report prepared by Broadridge Financial Solutions, Inc. (formerly Morningstar, Inc.) providing comparative expense and performance information about the Fund to assist with the annual review of the Advisory Agreement. Following that meeting, the Trustees received and reviewed additional materials prepared by the Adviser relating to their consideration of the renewal of the Advisory Agreement at the August 6, 2018 meeting.

Factors Considered. In reviewing the Advisory Agreement, the Trustees considered a number of factors including, but not limited to: (1) the nature, extent and quality of the services provided by the Adviser, (2) the investment performance of the Fund, (3) comparisons of the services rendered and the amounts paid under the Advisory Agreement with those of other funds and those of the Adviser under other investment advisory agreements with other registered investment companies and other types of clients, (4) the costs of the services provided and estimated profits realized by the Adviser and its affiliates from their relationship with the Fund, (5) the extent to which economies of scale would be realized as the Fund grows and whether fee levels reflect these economies of scale for the benefit of Fund investors, and (6) any other benefits derived by the Adviser from its relationship with the Fund.

First, regarding the nature, extent and quality of the services provided by the Adviser, the Trustees considered, among other things, the Adviser’s personnel, experience, track record and compliance program. The Trustees considered the qualifications, backgrounds and responsibilities of the Adviser’s principal personnel who provide services to the Fund, as well as the level of attention those individuals provide to the Fund. The Trustees noted the Adviser’s commitment to devoting resources to staffing and technology in support of its investment management services. They also reviewed the Adviser’s investment philosophy and processes and its compliance program, and considered the scope of the Adviser’s services to the Fund. The Trustees concluded that the nature, extent and quality of the services provided by the Adviser continued to benefit the Fund and its shareholders and would do so during the next one-year contract renewal period.

STATEMENT REGARDING BASIS FOR RENEWAL OF INVESTMENT ADVISORY AGREEMENT (Unaudited)

(continued)

Second, regarding the investment performance of the Fund, the Trustees reviewed the investment results of the Fund for various periods ended March 31, 2018, compared to the results of the MSCI EAFE Index (Gross), the median results of the mutual funds included in the Morningstar U.S. Open End Foreign Large Value category, and the median results of the funds in a peer group selected by Broadridge. They noted that, consistent with Broadridge's practice, the Broadridge 15(c) report focused on one class of shares – the Institutional Class – and that Investor Class shares are subject to a 25 basis point shareholder service fee, which increases expenses and reduces performance. They noted that the Institutional Class had underperformed its Broadridge peer group median for the prior one-year, three-year, and five-year periods, but had outperformed its peer group for the prior ten-year period. They observed that “value” stocks, which were important to the Fund's portfolio, have been out of favor in the market for various periods. The Trustees concluded that the Adviser's record in managing the Fund indicated that its continued management would benefit the Fund and its shareholders.

Third, regarding the Fund's advisory fee and total expenses as a percentage of the Fund's average daily net assets:

- The Trustees compared the Fund's advisory fee and total expenses with those of other similar mutual funds. They noted that the Fund's advisory fee was 80 basis points per annum compared to a median of 78 basis points for its Broadridge peer group and a range of 57 – 93 basis points for the funds in its peer group, and that the Fund's Institutional Class annual expense ratio of 89 basis points was the same as the median of the funds in its Broadridge peer group.
- The Trustees compared the Fund's advisory fee with the fees charged by the Adviser to other clients. The Trustees noted that, although the fees paid by the Adviser's other accounts were lower than the fee paid by the Fund, the differences appropriately reflected the Adviser's significantly greater responsibilities with respect to the Fund and the risks of managing a sponsored fund. The Trustees noted that the Adviser's services to the Fund included the provision of many additional or more extensive administrative and shareholder services (such as services related to the Fund's disclosure documents, financial statements, 1940 Act compliance policies and procedures, preparation of Board and committee materials and meetings, annual Board reports and certifications, oversight of daily valuation, oversight of Fund service providers, negotiation of Fund intermediary agreements, coordination with Fund intermediaries providing shareholder recordkeeping services, shareholder communications, and due diligence for advisers, consultants and institutional investors).

The Trustees concluded that the Fund's advisory fee and expense ratio were reasonable and appropriate under the circumstances.

Fourth, the Trustees considered the Adviser's costs of providing services to the Fund and estimated profits realized by the Adviser from its relationship with the Fund. They reviewed the Adviser's estimated after-tax profit margin with respect to such services for the twelve months ended March 31, 2018 and the methodology used to generate that estimate, and noted that the cost allocation methodology presented to the Trustees was reasonable. They also observed that the Adviser's estimated profitability was within the range cited as reasonable in various court decisions, even

STATEMENT REGARDING BASIS FOR RENEWAL OF INVESTMENT ADVISORY AGREEMENT (Unaudited)

(concluded)

though it had increased from the prior year. After consideration of these matters, the Trustees concluded that the Adviser's operating margin with respect to its relationship with the Fund was reasonable.

Fifth, regarding economies of scale, the Trustees observed that, although the Fund's advisory fee schedule does not contain fee breakpoints, it is difficult to determine the existence or extent of any economies of scale. They noted that the Adviser is sharing economies of scale through reasonable advisory fee levels, expense limit agreements, and devoting additional resources to staff and technology to focus on continued performance and service to the Fund's shareholders. They also noted that, in the Fund's prior years, the Adviser incurred losses in managing the Fund. The Trustees considered that the investment strategy that the Adviser uses for the Fund is capacity constrained, meaning that at certain levels of assets under management, it becomes more challenging for the Adviser to efficiently implement the Fund's strategy, and thus that the "supply" of the strategy is limited while demand has remained robust. The Trustees concluded that under the circumstances the Adviser is sharing any economies of scale with the Fund appropriately.

Sixth, regarding any other benefits derived by the Adviser from its relationship with the Fund – often called "fall-out" benefits — the Trustees observed that the Adviser does not earn "fall-out" benefits such as affiliated custody fees, affiliated transfer agency fees, affiliated brokerage commissions, profits from rule 12b-1 fees, "contingent deferred sales commissions" or "float" benefits on short-term cash. The Trustees concluded that the primary "fall-out" benefit received by the Adviser is research services provided by brokers used by the Fund and that this benefit is reasonable in relation to the value of the services that the Adviser provides to the Fund.

Approval. At the June 21, 2018 and August 6, 2018 meetings, the Trustees discussed the information and factors noted above with representatives of the Adviser and, at the August 6, 2018 meeting, the Trustees considered the approval of the Advisory Agreement. The independent Trustees also met in a private session at all meetings with independent counsel at which no representatives of the Adviser were present. In their deliberations, the independent Trustees did not identify any particular information or factor that was determinative or controlling, each Trustee did not necessarily attribute the same weight to each factor, and the foregoing summary does not detail all the matters considered. Based on their review, the Trustees (including the independent Trustees) unanimously concluded that the Advisory Agreement is fair and reasonable to the Fund and its shareholders and that the Fund's advisory fee is reasonable and renewal of the Advisory Agreement is in the best interests of the Fund and its shareholders, and the Board of Trustees unanimously approved renewal of the Advisory Agreement for a twelve-month period beginning September 20, 2018.
